Hard-hitting and in your face!

## About Christopher Greene

Christopher Greene started AMTV in 2009 when he decided to quit his job as a broker at Merrill Lynch. After witnessing the collapse of global stock markets in 2008 and seeing just how

badly it had devastated the lives of the people he cared about, he decided it was time to take action and do something about it! Frustrated by government bailouts and a lack of accountability on Wall Street, he picked up his camera and started making YouTube videos. A little over a year later what started from just a few subscribers rapidly grew to over 115,000+ people with over 19.5 million video views worldwide. In addition to viral YouTube videos, Christopher hosts a very popular live radio show, is frequently mentioned on national television and has millions of viewers in over 140 countries!

Christopher is regularly cited online and in print media, has been mentioned by CNN's Anderson Cooper, CNBC, Russia Today, the New York Times, InfoWars Nightly News and many others. He has covered live events such as the 2012 Republican National Convention in Tampa Bay and has interviewed celebrities like Peter Schiff, Stephen Baldwin, Jon Voight,

Sheriff Joe Arpaio and Ron Paul. **Bottom line... AMTV is the number one grassroots media organization in our market and our passion for liberty and truth unmatched!**

In addition to his passion for media broadcasting, Christopher is also the creator of breaking viral documentaries on subjects such as the untimely death of media maverick Andrew Breitbart, President Barack Obama's controversial executive orders on gun control and the increasingly dangerous surveillance state and wiretapping scandals.

Much of what Christopher has covered since the very beginning has come true in real life: the financial crash of 2008, the sovereign debt collapse and fragmentation of the Eurozone, worse median peak-to-trough declines in residential real estate since the 1930's Great Depression, escalating global war, the Arab Spring protests, invasion of Libya, the Occupy Wall Street movement, bailouts-to-infinity and now a growing police state in America!
